**DANESH
FELEZ**

About Us | Danesh Felez

Danesh Felez is a specialized manufacturing company with nearly two decades of experience in the production of metal and polymer components for kitchen appliances. Established in 2006, the company is recognized today as one of Iran's reliable manufacturers of gas stove knobs and oven handles.

Danesh Felez was founded by Mohammad Maleki and Mehdi Maleki, who laid the foundation of the company with a vision based on technical expertise, quality-driven manufacturing, and sustainable growth within the kitchen appliance components industry.

Located in Iran, the Danesh Felez factory operates with skilled human resources, modern machinery, and engineered production processes, focusing specifically on the design and manufacturing of control and functional components for built-in, freestanding, and tabletop gas stoves as well as built-in ovens.

Our Expertise

Danesh Felez products include a wide range of:

- Gas stove knobs
- Oven handles

Manufactured using high-quality materials such as aluminum and polyamide, our products meet the demands of professional kitchen appliance manufacturers. A wide variety of designs and models allows our components to be compatible with numerous brands and appliance configurations.

Competitive Advantages

What distinguishes Danesh Felez from its competitors includes:

- Wide product variety
- Durable and premium build quality
- Flexible sales and cooperation terms
- Custom production and dedicated mold-making based on customer requirements

We believe that every brand requires a unique identity. Therefore, we offer exclusive mold-making and custom manufacturing services to support brand-specific and differentiated products.

Quality & Standards

Quality control is a fundamental principle at Danesh Felez. All production stages are carried out in compliance with high international quality standards, and each product is thoroughly inspected for durability, performance, and safety prior to delivery.

Target Markets

Our primary customers include:

- Built-in kitchen appliance manufacturers
- Gas stove and oven producers

In addition to nationwide distribution within Iran, Danesh Felez has established a strong presence in export markets and currently supplies products to Iraq, Pakistan, Turkey, and Uzbekistan.

Vision & Values

Quality and innovation are the core values of Danesh Felez. With a forward-looking approach, we aim to expand our global markets, increase export capacity, and contribute effectively to industrial development and job creation. Continuous improvement of products and processes remains at the heart of our operations.

Danesh Felez is a trusted choice for manufacturers seeking quality, durability, and long-term partnership.

The image shows two cylindrical stainless steel knobs mounted on a dark, reflective cooktop surface. The knob on the left has a brushed metal finish on its top face, while the knob on the right features a concentric circular pattern. Both knobs have a perforated band around their middle. The cooktop surface is dark and glossy, with a visible seam running diagonally across the upper portion of the frame. The lighting creates soft shadows and highlights the metallic textures of the knobs.

A high-angle, close-up photograph of three cylindrical knobs arranged in a diagonal line on a dark, reflective surface. The knobs are made of metal and have different finishes: the leftmost is brushed steel, the middle one is chrome with concentric circles, and the rightmost is supermatt black. Each knob has a small circular indentation on its top surface. The lighting creates soft shadows and highlights the metallic textures.

The image shows two black, rectangular knobs with rounded ends, mounted on a dark, reflective surface. The knob on the left is mounted on a silver-colored circular washer, while the knob on the right is mounted directly on the surface. The knobs have a minimalist, modern design with a central slot for a finger to grip. The surface they are on is dark and glossy, with some reflections visible. In the bottom left corner, there is white text providing product information.
